

APPENDIX F. ASSET VISIBILITY FILE REPORTS

F-1. General

The Asset Visibility File is compiled of extracts from every AMEDD property book; therefore, it contains all of the important AMEDDPAS data elements for property accountability, maintenance management, and equipment forecasting and acquisition. The *AMEDDPAS Users Manual* lists the individual data elements available in AMEDDPAS. With programming, any of these data elements can be displayed in a detailed or summary fashion in numerous report formats for one or several activities. The Asset Visibility File (AVF) is as accurate as the property book information from which it is compiled.

F-2. Access

Activities with a need for information from the AVF should contact the USAMMA (ATTN: MCMR-MMT-C, DSN 343-4326/Commercial 301-619-4326) to discuss details for production of a desired report. Figures F-1 and F-2 provide examples of the capabilities of the Asset Visibility System.

F-3. Explanation of Figure F-1 Asset Visibility Report, Age of Assets by Property Book and Item Description Code.

General. Figure F-1 is an example of the type of information that is available from the Asset Visibility File. This particular report is a supply study which indicated the average ages or range of ages for dental equipment at a selected activity. This information may be helpful as a planning and forecasting tool. The items discussed below correspond to the numbered circles in Figure F-1.

- (1) **ITEM 1.** AMEDDPAS Property Book number selected is "99".
- (2) **ITEM 2.** This is the range of IDCs for all Dental Equipment.
- (3) **ITEM 3.** This line indicates that there are seven (7) Panographic X-ray units (IDC-2750) with an average age of 5.9 years and an age range of 3.2 to 12.6 years.
- (4) **ITEM 4.** This entry shows that the average age of all dental equipment is 10.0 years at this activity.
- (5) **ITEM 5.** This part of the report provides information on the oldest asset.

F-4. Explanation of Figure F-2 Asset Visibility Report, Assets by Property Book and Unit Price.

Figure F-2 is another example of the type of information that is available from the Asset Visibility File. The example lists high-dollar assets over \$500,000 that are on hand at a selected activity. This information may be helpful for property accountability and maintenance management purposes. The items discussed below correspond to the numbered circles in Figure F-2.

- (1) **ITEM 1.** AMEDDPAS property book number selected is "99".
- (2) **ITEM 2.** This is the dollar range of the report, (i.e., \$500,000 to \$1,000,000).
- (3) **ITEM 3.** MMCN is the local assigned Materiel Management Control Number.
- (4) **ITEM 4.** These are four (4) items that are recorded on the property book at this activity.
